

5.2 QUALITY AND ENVIRONMENT POLICY

The Quality and Environment Policy in AIANOX, S.A. is focused on increasing the satisfaction of our customers. Taking into account the high level of demand demanded by them, we are convinced that this fundamental premise is the only guarantee and at the same time the promoter of a continuous profitability.

To develop this Policy, the Management and the Management Team of AIANOX, S.A. assume the following commitments:

- Develop and implement a Quality and Environmental Management System in accordance with the requirements of the ISO 9001 and ISO 14001 Standards, as well as promote the continuous improvement of its effectiveness.
- Ensure that Quality and Environmental Objectives are established in the relevant functions and levels within the Organization.
- Comply with the requirements specified by our clients, as well as the legal and regulatory requirements related to the activity, products and services.
- Plan and provide the necessary resources in terms of production, control and facilities, as well as human resources, including their competence and training.
- Promote and develop actions for the continuous improvement of our processes and products, as well as the prevention of pollution.

The quality and protection of the environment is the responsibility of the entire Organization and, therefore, it must be ensured in the processes and activities carried out in all the jobs. This requires collaboration and commitment from everyone. Therefore, this policy is communicated to all personnel working for the Organization or on behalf of it.

We must work as an organized team, all participating in obtaining quality and improving customer satisfaction, as well as in achieving the objectives and protecting the environment.
